PROJECTS

Senior Project

I created a web with a construction contractor to help a friend's company. The site allows customers to contact the company and track the progress of construction

Tools.

- MySQL Server

I use MySQL to store project details

such as projectname, project start date.

- PHP language

I use PHP to use to connect to the database.

- HTML + Bootstrap

Used to design Web sites.

- phpMyAdmin

Used to show the Web site to create a project.
